Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification.

EQA

Sustainability

Sustainable production.

The Rastatt factory, where the new EQA is built, reduced its CO_2 output by 58% from 2011–2019 and all our Mercedes-Benz factories around the world plan to be CO_2 neutral by 2022.

Sustainable materials.

To ensure the responsible mining of cobalt, lithium and other battery raw materials, Mercedes-Benz has already made the IRMA Standard for Responsible Mining a contractual component for all future vehicle projects.

Sustainable mobility.

Locally emission-free driving pleasure, virtually silent with full access to inner city zones. All our vehicles come as standard with an external acoustic warning to alert pedestrians or cyclists at speeds under 19 mph.

EQA

Technology

Mercedes-Benz User Experience (MBUX)

Transforming the in-car user experience, thanks to MBUX: Controlled via voice, touch or optional gesture input, the innovative infotainment system can over time even predict personal habits thanks to artificial intelligence.

Multi-gesture touchpad control

MBUX multimedia system with DAB digital radio

Voice control

- Activated by the keywords “Hey Mercedes”, the new intelligent voice control LINGUATRONIC[1] lets you control many of the infotainment functions, including destination input, phone calls or music selection
- MBUX is able to understand different accents and will adjust to you over time
- MBUX even understands indirect commands. Feeling chilly? Just say “I feel cold” and MBUX will adjust the temperature for you

Personalisation

- Turn the new EQA into your very own Mercedes-Benz by personalising driving modes, radio stations, ambient lighting and much more
- Your personal settings can be saved in up to seven different profiles, making your driving experience the best one possible
- Thanks to artificial intelligence, MBUX is able to learn and adapt over time. It will be able to predict your personal habits, such as navigation for frequently-driven routes, or the radio station you like to listen to on your way home from work

Touch inputs

- Beside voice control you can operate MBUX via touchscreen, the touchpad on the centre console, as well as touch control buttons on the steering wheel
- The touchpad recognises your handwriting should you wish to enter addresses or phone numbers silently

Maintenance and service

- Wondering when the next service is due? Or how much further you can drive until you need to stop at a petrol station? Just ask your MBUX – it will tell you the answer

[1]LINGUATRONIC off-board functions are currently only available for three years

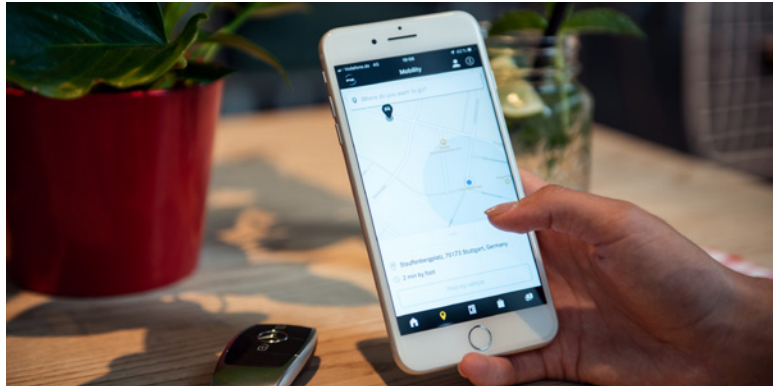
Mercedes me connect Stay connected any time, anywhere.

Mercedes me

Mercedes me is a range of innovative online services designed to enhance your Mercedes-Benz experience. Accessible via mobile, tablet or PC, Mercedes me lets you enjoy the highest standards of care and support, in a way that integrates seamlessly with your busy lifestyle.

Safety and Service – Mercedes me connect helps to keep you and your car safe

Check your car's washer fluid level, tyre pressure and battery level from your phone so you'll be ready for every journey.



Infotainment – Online and Entertainment services from Mercedes me connect

Love music? Get a 3-month free subscription to Tidal when you connect your car.

Live Traffic Information, Parked Vehicle Locator and much more with Mercedes me connect

Forgot where you've parked? Parked Vehicle Locator[1] will show you exactly where your car is as long as you're in a 1-mile radius of where you parked. Real-time traffic data and dynamic route with shorter journey times.

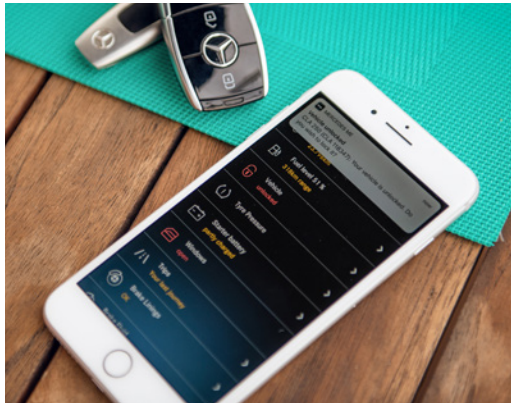
For more information speak to your local Retailer or visit the Mercedes me connect store at shop.mercedes-benz.com/en-gb/connect

Comfort – connect to your car anytime, anywhere

Forgot to lock your car? With Remote Car Lock[2] you will receive a notification on your smartphone to let you know. With one tap, you can lock and unlock your vehicle so you never have to worry.

EQ-specific Services

Check your charging status on the go and programme your pre-entry climate control and charging settings remotely. The EQ-specific navigation considers electrical range, topography and charging stations.



[1]Available on all models with the Vehicle Monitoring package. This option may vary between standard and additional cost dependent on the model

[2]Part of the Vehicle Status package. This option may vary between standard and additional cost dependent on the model

EQA

EQ

Benefits of driving EQ

Electric Intelligence

Mercedes-EQ couple the locally emission free, refined drive and effortless powertrain of an electric vehicle with the luxury, elegance and high-quality craftmanship of a Mercedes-Benz.

Click here for more information

Lower running costs

We've partnered with Go Ultra Low, a joint Government and car industry campaign, to give you unbiased advice on making the switch to an electric car. Use Go Ultra Low's cost saving calculator to see how much you can save. Click **here** to discover more.

Performance

Instant torque provides effortless driving pleasure.

No road fund licence

EQ vehicles have no local emissions – this means you pay no road tax.

[1]100% first-year capital allowances only apply to vehicles less than 50 g CO_2/km

Cleaner vehicle discount

EQ battery electric vehicles are congestion charge and ultra low emission zone charge exempt in London.

Business benefits

With 100% first-year capital allowances[1] and 1% BIK tax, electric cars offer significant benefits to businesses and employees.

Refinement

Acoustically optimised and a near-silent powertrain means that driving EQ provides a sensory experience of luxurious refinement. All our vehicles come as standard with an external acoustic warning to alert pedestrians or cyclists at speeds under 19 mph.

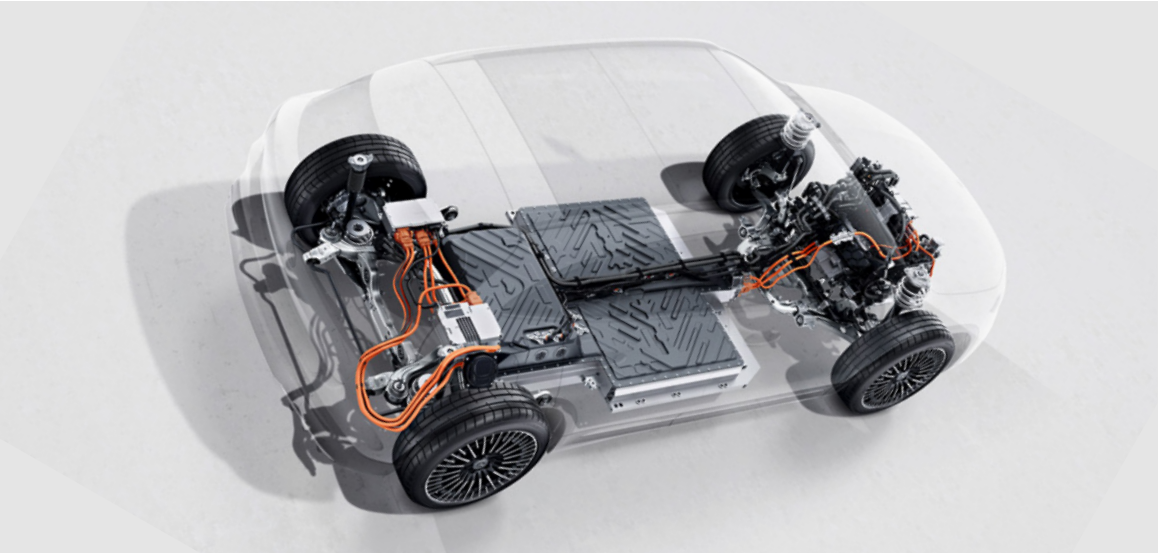
EQA

Electric Intelligence

The EQA is the first all-electric member of the compact car family from Mercedes-Benz. Offering locally emission-free, efficient driving combining driving pleasure and performance with dynamic design.

EQA 250
Battery electric vehicle, 190 hp/140 kW
Electric range 249–263 miles – WLTP

OTR incl. PiCG from **£40,495**[1]



Standard equipment
Acoustic ambient protection – the tone pitch changes depending on the driving conditions. You can therefore also differentiate whether you are braking or accelerating. Above 19 mph, the system is deactivated since wind and tyre noise tend to dominate at higher speeds
Charging system – AC charging system rated at 11 kW; DC rated at 100 kW
Charging socket
Mode 2 cable (5 m), enables you to charge the vehicle battery via a domestic plug socket
Mode 3 cable (5 m), enables you to charge the vehicle battery via the wall box or at public charging stations at up to 11 kW
Pre-entry climate control
Radar-based recuperation
Suspension – comfort suspension as standard, electrically adjustable damping suspension included in the Premium Plus package (code DP2)

Technical details	
Electric range[2]	249–263 miles
Charging time AC outlet (230 V/13 A) 10–100%[3,4] Wall box (400 V/16 A) 10–100%[3] Public rapid charging (100 kW) 10–80%[5]	 30 hrs 5 hrs 45 min 30 min
Range power consumption, combined[2,5]	190–179 Wh/km
Battery type (capacity)	lithium-ion (66.5 kWh)
Capacity on-board charger	11 kW AC 100 DC

[1]The recommended on-the-road price includes the Road Fund Licence applicable to the standard model plus delivery charge (£715.00 incl. VAT), new vehicle registration fee (£55.00) and number plates (£25.00 incl. VAT). VAT is calculated at the standard rate of 20% [2]Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish range, power consumption and CO_2 figures can be found at http://www.mercedes-benz.co.uk/WLTP [3]Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-100% charge using a wall box (three-phase) or standard socket (single-phase) [4]If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord) [5]Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-80% charge using public rapid charging at 100 kW

Mercedes me Charge One registration, one contract, one billing.

Mercedes me

Mercedes me Charge provides access to a multitude of public charging stations located in shopping centers, hotels or at motorway services. A smartphone app as well as the vehicle's navigation system show the precise location, current availability and price at the selected charging station.

Tens of thousands charging stations in the UK

Growing network of charging providers includes bp pulse the largest charging network in the UK. Customers also get six months free bp pulse+ membership which reduces the electricity price when charging.

Access to fast-charging stations

Enables customers to get access to charging stations of different providers with:

- Mercedes me app
- RFID card
- EQ Vehicle Head unit

Transparent and easy billing

One invoice charging processes for payment.

Easy access

Charging stations are displayed in Mercedes me app and in MBUX multimedia system.

No fees

Mercedes me Charge is standard for three years with discounted IONITY rapid-charging for one year.

bp pulse home charger Simple, convenient, fast charging.

Mercedes-Benz plug-in vehicle customers with off-street parking can benefit from the convenience and speed of charging at home by installing a bp pulse home charger. The 7 kW bp pulse home charger delivers a full charge overnight in around 11 hours[1] – that's up to three times faster than using a 13 A three-pin domestic plug.[2]

bp pulse home charger 7 kW: **£499*** incl. VAT & installation

Key benefits of the 7 kW bp pulse home charger:

- Robust and weatherproof, for indoor or outdoor use, and comes with a three year warranty
- Installed in as little as two weeks
- The cost for a fully-installed charge point at your home includes the £350 OZEV (EVHS) grant[3]
- As a Mercedes-Benz driver, when you install a bp pulse home charger you will automatically receive three months FREE membership to bp pulse, the UK's largest public charging network with over 7,000 charge points

Questions?

hcenquiries@bp.com

Call their dedicated Homecharge team
01582 399 412

Warning! If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord.

*Price includes £350 OZEV EVHS Grant. Price correct at time of publication, subject to change [1]Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-100% charge using a wall box (three-phase) or standard socket (single-phase) [2]Based on 7 kW power output for plug-in hybrid vehicles [3]The bp pulse home charger £350 Grant (including VAT) is only available to customers who meet the criteria of the Office for Zero Emission Vehicles (OZEV) and is provided and installed by bp pulse home charger plc. For full details and eligibility criteria for the OZEV EVHS Grant, see https://www.gov.uk/government/publications/electric-vehicle-homecharge-scheme-guidance-for-customers-version-21. For full bp pulse home charger Terms & Conditions visit https://chargemasterplc.com/terms_conditions

EQA Sport

Option shown: denim blue metallic (code 667)

EQA 250 Sport Battery electric vehicle, 190 hp/140 kW Electric range 260–263 miles – CO_2 WLTP 0 g/km[1]	Basic RRP excl. VAT (£)	Total RRP incl. VAT (£)	Road Fund Licence (£)[2]	Rec. OTR price (£)[3]	Rec. OTR price incl. PiCG (£)[4]	P11D value (£)	BiK tax rate 2021/22 (%)[2]

Driving Assistance package

The Driving Assistance package contains a range of highly intelligent features to help you stay safe on the road – by making the drive more effortless, by warning of danger, and by taking steps to protect you in an emergency.

Driving Assistance package (code PAY) – designed and priced as a package

Available on all models **Total incl. VAT £1,495.00**

Active Distance Assist DISTRONIC

Active Brake Assist

Active Blind Spot Assist

Active Distance Assist DISTRONIC
- Active Speed Limit Assist
- Extended automatic re-start on motorways
- Route-based speed adaptation with end of traffic jam function

Active Blind Spot Assist with Exit warning function can warn the driver of vehicles in the blind spot when driving or when opening the door to exit the vehicle

Active Steering Assist
- Active Emergency Stop Assist with SOS function – immediate emergency braking if evasion is impossible
- Active Steering Assist prevents unintentional drifting out of lane through targeted steering intervention

Active Brake Assist with turning manoeuvre function, cross-traffic function and congestion emergency braking function

Evasive Steering Assist can support the driver in making evasive manoeuvres if, in a dangerous situation, he/she moves to avoid any pedestrian detected by the system

Active Lane Keeping Assist

Pedestrian warning function near pedestrian crossings

Trailer coupling with ESP® trailer stabilisation

Trailer coupling with ESP trailer stabilisation[1] (code 550)

Available on all models **Total incl. VAT £750.00**

Expand your transport options: with this practical equipment you can hitch up both trailers or caravans and also mount cycle racks. The trailer coupling is ready for use in no time at all – and can be folded in again behind the rear bumper just as quickly when it is no longer needed.

Operating safety is the top priority: to fold out the trailer coupling, you must first unlock it via the control button in the boot. As soon as the button light goes out, the trailer coupling is correctly engaged and is therefore ready for use.

Even when driving you can benefit from a comprehensive safety concept: the ESP® trailer stabilisation is able to intervene automatically in critical situations when driving with a trailer. The associated sensor system detects the trailer independently as soon as the electric plug is connected to your vehicle.

The ESP® stabilisation functions are automatically active from a speed of 40 mph. When undesired oscillating motions are detected, the Trailer Stability Assist actively dampens these with the aid of alternate brake actuation of each individual wheel. In most cases this is already sufficient to reduce dangerous oscillations. If necessary, the system additionally reduces the speed: for this, the engine torque is reduced and the vehicle is braked via all four wheels.

[1]Please be aware fitment of this option will impact expected range

[1]Figures according to Regulation (EC) No. 595/2009 in the currently applicable version [2]Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-100% charge using a wall box (three-phase) or standard socket (single-phase) [3]If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord) [4]Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish range, power consumption and CO_2 figures can be found at http://www.mercedes-benz.co.uk/WLTP [5]Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-80% charge using public rapid charging at 100 kW

Electric range and consumption

Model	Power Consumption Combined (WLTP) (Wh/km)[1,2]	All Electric Range (WLTP) (miles)[2]
EQA 250 Sport	179	263
EQA 250 AMG Line	180	261
EQA 250 AMG Line + Premium package (code DP1)	186	254
EQA 250 AMG Line + Premium Plus package (code DP2)	188	251

Driving Assistance package (code PAY) has no impact on range

Trailer Coupling (code 550) reduces range by up to three miles

[1]Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-80% charge using public rapid charging at 100 kW [2]Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Road Fund Licence

All road vehicle registrations are subject to Vehicle Excise Duty (Road Fund Licence), which varies in accordance with the vehicle's CO_2 emissions. A first year rate for each taxation band will apply. The table below shows the bands (A–M) created by the DVLA and the corresponding Road Fund Licence. CO_2 emissions and the relevant Excise Duty are shown on the model pricing pages.

					Electric vehicles		Alternative fuel vehicles		Petrol/diesel vehicles	
Band	CO_2 emissions (g/km)	First year rate petrol and RDE2 diesel (£)	First year rate all other diesel (£)[1]	First year rate alternative fuel (£)	Standard rate (£)	Premium rate (£)[2]	Standard rate (£)	Premium rate (£)[2]	Standard rate (£)	Premium rate (£)[2]
A	0	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00
B	1 to 50	10.00	25.00	0.00	0.00	0.00	140.00	465.00	150.00	475.00

Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification
[1]Applies to all Mercedes-Benz diesel models which do not comply with RDE (Real Driving Emissions) Step 2 Certified (Euro 6d)
[2]Premium rate only applicable to vehicles where the list price is over £40,000 including any factory-fitted options, standard UK delivery charge, number plates, fuel and VAT

Services and insurance

Mercedes-Benz ServiceCare
We believe that servicing costs should be as flexible and affordable as possible for your EQA, which is why we offer ServiceCare, an easy way to budget for all your servicing costs. It spreads your bills into manageable payments based on whether you have a new or used Mercedes-Benz.
With ServiceCare we guarantee the price of parts and labour for up to four services and safeguard against any further inflation.
You can choose either to add your servicing costs into your monthly spend or pay the full amount in a one-off payment, giving you peace of mind that they are taken care of for the period of the plan.

› Click here for more information

Warranty and breakdown cover
Every Mercedes-Benz comes with a three-year unlimited mileage warranty against manufacturing or material defects[1] and up to 30 years warranty against perforation due to corrosion from the inside out.[2] What's more, it's also covered by Mercedes-Benz Roadside Assistance – a unique package comprising up to 30 years pan-European breakdown assistance.[2]

Battery Warranty
The battery comes with an eight-year 100,000-mile warranty.

Motor Insurance
Superb cover comes as standard. When reviewed by an independent research company, Defaqto, Mercedes-Benz Motor Insurance received a five-star rating, the highest rating available. We design our Motor Insurance specifically for Mercedes-Benz drivers.
